

Realms map trashed (just a bit)

Posted by Tunes - 25 Aug 2011 13:34

Hello folks, recently I run into an out of disk space situation on the mc servers due to another process running on the server not related to mc itself, spewed a few gigs of logs into the disk in a few hours.

So, this trashed the map, causing disconnects and other stupid map errors, like things dissapearing.

I hope that its fixed now due to some manual/automatic recovery.

Sorry is someone lost something.

And I lost 2 hours of my work day fixing the map... its worth a lot more than 5 stack of diamonds 😞

But if you really want them.. you can buy them at my store 😞
