I blame gimp.

I blame twilight -_-

I asked twilight who do they blame.

They said the blame raywilliamjohnson.

nobody cares what twilight think. They think vampires sparkle therefore they're opinion is meaningless 🙄

erm gimp you wear bonds and a latex mask all the time imo that means your opinion is meaningless just for the fact your a slave here 🙄

anyways i think twilight is a good film except for the fans who are just retarded to say the least lol

1. Lets try to keep it on topic 🙄
(i've not had a problem opening chests but looks like our friend has sorted the problem)

2. The twilight films SUCK... Books are good, films... really? They're made by a freaking fangirl for fangirls. What was the buget? A fiver for glitter?
