honestly these kind of things shouldnt be unbanned, wether they are for RP or not it doesnt matter it still has to do with one terrible war and one terrible man.. If we allow these sort of people to be on the server what will we have next?

i say he should stay permed.

cant understand why some people would want him unbanned , if he is you may aswell put up a sign on our forum saying " its ok if your a racist prick as long as you apologise " not singling anyone out but i think its a apalling attitude to have , i hope this guy and anyone else that is racist will stay banned . 🙄
