Teleporting during combat

Tunes is there a chance youll add some sort of plugin that disallows you use any sort of teleportation command if you got hit for the part 10 seconds?

It is extremely annoying when you try to fight someone and when he knows he is about to die he just teleports home or something(Even worst when that guy has a keybinder...).

I believe CommandBook allows you to set a cooldown/warmup to use commands. If not, there is a plugin that can do this.
