

## Stone Bug

One day I was walking with all my enchanted stuff and 2 stacks of obsidian 🧙  
🧙 And then I fall into a pit, hit a floatin ore vein, then I die and ALL of my stuff falls in lava 🧙  
(true story). Could you fix it? P.S. Could you spawn my stuff back for me?

There is something weird happening with spawn, I have no idea what it is, as sometimes while I'm fixing, the blocks change in front of me for what they were at the world generation time...
