

Wcs - Admins Needed!

Posted by DommyBarr - 23 Jan 2012 15:14

Just wanted to know how many admins use the wcs server, because of late, there has been a fair amount of unfair games been played, for example;

Basically EVERYONE Wards on Anti_camper/Aim_deag - And it turns away quite a lot of potentially new players.

Also races that spawn weapons such as m4's/ak's etc, are commonly been used on weapon limited maps such as[Scout/Deag/Awp etc].

I mean, i could quite easily just get the steam id's of the abusers but i'd rather there be some active admins :')

And yeah, i do realize the subject is rather ambiguous :p

LOTS AND LOTS OF LOVE FROM DOM ;D

I was an admin, but the last time I went on I didn't have it, so no idea what happened xD but you can add me anyway. Username's the same for everything 😊

When the server 'died', the admin seemed to die as well which meant nobody had it for like a day, I think Mentoz (the noob) fixed it soon after though 😊
If not him then some I did

lol, yeah sometimes you get unfair games, but they normally even out, its not normally that the players are better, there just all using high levelled races lol, no chance when trying to level one for yourself 🙄

Not only is there that, but these last few weeks i've lived on that server. And most games can be completely ruined by skets who use wards on the restricted maps. And without trying to sound racist, they're usually foriegn. So it's bloody hard to get the message across.

Well I don't think I have admin anymore, but I know what you mean. Haven't been on the server for a while though because I've been busy at University, and only just got my new PC 🙄
