Btw not sure if this is a reason, but carbrini looted us for some months ago when we had that cobblestone base in the middle of nowhere. So that might be a reason 🙄

It seems this Max guy causes a lot of trouble hmmm. Perhaps we should implement a rule that you aren't allowed to grief peoples bases but you are allowed to steal their stuff. Will probs stop this Max guy

causing people to leave the server because that's the only thing I can see him doing right now.
