

Server offline?

Posted by Chifilly - 11 Feb 2012 18:14

It seems the server's offline 😞

Also, dunno whether this is a problem with me, but the website is loading extremely slowly :/

Yeah, that's why I posted it in the Minecraft section 😊

Also, Gimp, your mob spawner kinda exploded again. I was happily killing Zombies, killed the last one, about to press the "Oh shit a creeper" button to get rid of all the zombie flesh, then "Sssss... boom!" xD 2 pieces of the cobble on the pistons broke 😞

And the website's slowly coming back to life for me xD
