

The bug with the auto register plugin...

Posted by VooDoo - 16 Feb 2012 22:34

Yeah, me, Space_cowboy001, liam151525262(made the numbers up.. all i know is there was numbers) and modernscarab are all left with LITERALLY NO rights..

We have NO rights and no abilities (the only commands we have are /vs and /faction commands)

EDIT Yeah.. wrong section.. leave me alone 🙄
