

## A problem entering The End

Posted by Chifilly - 21 Mar 2012 11:06

---

Whenever I try and enter The End while in Creative I get instantly kicked and a message "You moved too quickly" (Hacking?) And then, when I rejoin it makes me say "v:1" and I'm floating in an unrendered End. No idea why it does that :/ it works fine in survival, but just happens in creative

Nope Space. On the floor, hopped into the portal and kicked :/
