

Creative server has been grieved

Posted by FroggyFace - 05 Jun 2012 18:30

It apears that moderscarab gave our creative server a visit like a month ago and grieved it, i've been trying to get rid of the lava and i did but i'm not sure i did to all of it. modernscarab needs to be banned and i can't do it because of the creative i'm a mod not an admin and if anyone sees a giant lava fountain please let me or any mod know 😊
