Well we just had our first hacking/spamming/anythingtheycando team on the mc server. Didn't particularly enjoy it 😬  
but my guy just stuck whitelist on and all was good 😊  
So this doesn't happen in the future if you have time around the reset tunes can you install mcbans?  
then all those noobs who are banned constantly for all that wont be able to join 😬

thanks 😊

Let this be a warning to everyone who feels they can come on to the forums and use them to hurl abuse at other members; in this case a founding member of TWK.

This is a friendly community but we do not tolerate aggression, rudeness or just plain arrogance. This is a website for adults, not children.

Amitiel, my wife, has given up more time to TWK than you can possibly know and over many, many years. She was there from the start when we launched TWK - in fact, it's thanks to her that TWK was even created. She has put in time and money to support our servers and despite having a lot going on irl she still stays around to help out.

Keep your posts clean and show some maturity.

If you can't do that, you are not welcome here.
