

Aeronx Cheating - Insta block breaker

Posted by Gedafix - 29 Jul 2012 08:36

Greetings!

I'd like to report a Cheater Aeronx. I was playing late last night and he had the "money" counters that goes off after you break so many blocks go off about 20 times in a matter of 60 seconds.

I believe he is using an insta-break block client or something of that nature. If you look at his stats page, he has just under 15 hours of play time, but over 60,000 blocks broken. That's one block broken every .9 seconds for 15 hours straight with no interruption, lag, or breaks.

It doesn't mathematically make sense.

Thanks,

Lost

no need to eye and I also believe there are more doing the same

I've demoted him to players, if he continues, ban.

I noticed him filling my console with noheat messages...

Well, I went to his base last night, and he seemed kinda suspicious, so I copied and pasted his chests, and found a lot of diamond tools, and a lot of diamond armour with the exact same durability. I confronted him, and he said he'd stop, then my game crashed, and I just went to bed. I think he's been duping. I've set my home at his base, so I can go there and people can TP to me. I think he needs a ban.

EDIT: Just checked his chests again, and the items seem to be gone. Unsure whether he got rid of them like he said he would, or someone somehow stole them, but they're gone. However, those items were there, and he did admit do duping (of sorts).

He seemed friendly enough in game. I don't know if he was malicious or if he was just ignorant. His mcmmo starts definitely need reset to zilch
