No it doesn't explain it all. I've watched this whole arguments (which seems to have been going on for about 20 minutes) and this isn't even 1/8th of the argument, so coming on here and trying to drop someone in it with a picture of 1 thing someone else said doesn't help. Granted, what ocguy said definitely isn't ideal, the stuff you've said didn't help the situation

Well handyman, you've just own a perm ban!

Want to know why? Next time, be really careful when posting screenshots.. that one show your x-ray texture.

Cheers!

My what? I don't have x-ray Imfao. If I had x-ray wouldn't I have stacks of diamonds and iron?

I have optifine mod.

I've been meaning to post this earlier but I recognized the simplecraft texture pack, I use it as well sometimes. I don't think the image handy posted is indicative of x-raying (I suppose only Admin can check properly though) Personally I like oCd's pack www.planetminecraft.com/texture_pack/oCd-pack/ it's similar no-nonsense texture pack

Cheers ^^

X ray detector show a very high percentage of diamond ore found, 120 blocks out of 8000 in one day is quite a bit high.

And yes, people showed me it was simplecraft.

Also some people pointed me you were also exploiting with pistons, diamond ore and silk touch.

Handy, you do know there's an Edit button right underneath your post. You might want to use that

instead of triple posting next time.

I don't x-ray and you wanna know who exploited the piston thing? It was kidkoala and shadow. You think I would do that shit? I've been on this server and dedicated. I don't x-ray now my friend that joined my faction x-rayed for like some iron and shit but I kicked him cause I don't like x-rayers.

Also who said I exploited that. Cause i don't even know what that is. 2nd off i've never enchanted a pick axe soo?
