

PvP is off

Yea, PvP is off. Can it be turned back on? Also factions cost 1000 crafts to create, if it could be lowered to 100 that would be good. Or just take the money aspect out of factions? kinda sucks tbh.

Well, pvp should be on, it's enabled on the server settings, maybe some other weird plugins is turning it off.. will take a look

Factions cost 1000 to create cause to avoid a create/disband bug where it costs 100 to create and disbanding would reward 1000, so I set the creation cost to 1000.

Faction money thing is way to prevent rampage griefing.

pvp should be on again, it was a multiverse setting, also applied to all other worlds, maybe it happened when I upgraded multiverse.
