Yeah, telling us what happened isn't going to get anyone anywhere. We need to know where it happened! Exactly where! So we can look into it!

Oh, That?

Lets see.

The floor had Materials i wanted, SO i mined 1 layer of the floor.

I wanted chests, SO i broke your chests.

I took your items, I wanted them 🙄

I left that sign because the person who teleported me in didnt want to get blamed for taking your items.
