Look, Chif, I really love this server and the people on it. As soon as I can, I can cut all access to my account from other people, and can stop anything shady from happening. I really want to keep playing, and I can assure you that this will NEVER happen again, whatever actually happened. I can assure you I did NOT mine 135 diamond ore, or however many it was. I swear that this will NEVER happen again, and it won't, no matter what it takes. All I'm asking for is just ONE more chance.

P.S. Even though I don't x-ray, I 100% sure of somebody who does x-ray. Just thought you might want to know...

Well, I guess there's no use in trying to convince people who don't listen. We are listening. Just whatever you say isn't going to change anything.

And don't say "Well this time you know it's going to be a permanent ban," because when I first got banned, I was told it was a permanent ban, and I still tried. Again, why would this be any different? I explained in the post you made about getting unbanned the first time. I was giving you the benefit of the doubt and you made a friendly unban request. If you were caught again, it would be permanent. So, you were caught again (I don't care if it "was your sister" or "someone hacked your account") and you will be permanently banned. End of story
