Unfortunately, you broke the server rules to a high extent, and so you will not be getting unbanned. I've got audio evidence of you admitting you had an x-ray hack installed, and I'm willing to publish it for all to see if you think you can just break the rules.

I'll be monitoring your friend(s) too for such activities, so I'd suggest you pre-warn them before the same happens to them for sheer idiocy and ignorance of rules.

I've uploaded them, as requested:

I got two 30 seconds clips from a player, but I won't announce who as I'm not 100% sure if he wants to be named. You can tell it's coppercopninja by taking a listen to those two video's, and then listening to some of the video's on his YouTube channel: www.youtube.com/coppercopninja

I'd recommend doing so before he removes the video's - however, having had an Admin and a Moderator+ see the video's, I doubt it's going to help his case much.

That's pretty funny, You say that you don't wish to name the other guy, but in the video he presses tab and you see his username..

Oh well, on the other hand, I don't think it matters too much..

Well done for submitting this (for everyone involved).
