

## Help with Skyblock

Posted by KarlieAnn16 - 23 Aug 2013 04:56

---

Hello everyone! I finally have my own account on TWK and I just created an account on here. Now I was reading through in the General Discussion about Skyblock and not being able to access it. But I really want one so is it possible that I could get one? I tried getting to one but it says that I don't have permission to use that command. Help?

Thanks!

Well, first off.. Welcome to TWK 😊

Secondly. About the skyblock. We've been having some MAJOR problems and issues with the world designated to skyblock which allow people in the skyblock to get items, weapons, materials and various other things that should DEFINITELY not be available in skyblock, this allowed people to rapidly level MCMMO Skills to the point that it ruined the game for others and for that reason we removed access to the skyblock world to most users. as we've not found a fix yet (as far as I know) access will most likely continue to be restricted (I may be able to sort something out.. MAYBE).

Sorry for the inconvenience 😊

Minecraft is down atm, I'll be rebuilding the server, when it comes again, in a day or two (mostly two), the skyblock and other plugins will be updated and hope things will work better then.

Cheers.
