

Greifed

Posted by gracielynn - 11 Sep 2013 23:30

I have been greifed by the faction vendetta. I'm not sure who did it in the faction. And plz tell me another way to tell the cords without putting it on the forums because i don't want people knowing where my base is.

There are a number of reasons why this complaint won't work:

1. Normally the admins of the server require some kind of photo evidence to show the extent of the damage
2. It's normally quite hard to tell who griefed you unless they told you which again needs some screenshot
3. Like either private message, or /msg the admins when they come on the server to give them cords

Hope I could help

Yeah, Pretty much what Maxii said, PM me the coordinates, i'll check it out. and also.. some screenshots of the damage would help (so I can be sure what is what).

Thanks

Hello, I am the leader of Vendetta, and on behalf of the faction I apologize, it was me, I have spoken to x_iCraft_x and he has reasoned with me, I was confused with the rules.. I was under the impression that I was only raiding as my base was blown apart by wyatt, I didn't complain because I thought that was raiding, I found gracie's base not knowing it was her's, I thought it was wyatt's, I now know not to destroy without purpose.. although I was killed first time I joined the server by wyatt and gracie after generously donating 10 diamonds in return for letting me join the faction 🙏
I need to be I can help rebuild the dock.. (very small) And you Gracie I'm a pacifist so we can get along 🙏
cheers

THx anonymou596 for saying sorry to gracie. I just thought it was funny that you thought that was my base lol. (Ps) The reason why Killed you was because you tried to kill me. And do you have anymore diamonds I can have 🙏

no I didn't! :) you invited me, I gave you diamond, you jailed me, kicked me from the faction then killed me, I couldn't do anything! anyway that's in the past now. AND NO! 😊

Shut up Maxii, We can't change the order that things happen, It's not his fault or anybody else's, so don't make silly remarks.
