

## Shop style

Posted by Tunes - 11 Jul 2011 14:58

---

Well folks, I think this is almost on its way of making it public, so, one final question!

Global server owned shops where you can convert extra resources for money to buy land and other surprises?

Advantages - No fuss to players to setup a shop, shop always buys your garbage, available globally via commands (not to many, just /shop)

Neutral - prices float

Disadvantages - IDK 🤔

Localized player owned shop

Advantages - Players control the market prices

Disadvantages - Player shop may refuse buying all the extra garbage (dirt, cobble)

Personal opinion, global shops are easier and are a lot simple to maintain.

global. i play on another server with lots of plugins and the iconomy one is in it and the /shop is a command so we can sell stuff and buy property 😊  
its very fun so i would like this to be added

Well, atm there is a /shop command, its not chest based and I need to give it a test to see if items really get sold from the users inventory.

Buying land will come next!

But beware, buying land is more renting land 😊  
it will cost per week  
to help things flowing!

Buying land will come next!

But beware, buying land is more renting land  
to help things flowing! 🧐

will all of the faction members pay for the land equally?

Buying land has no relation to claiming land which is permanent, they are different plugins.
