

Minecraft residence plugin

Posted by Tunes - 15 Jul 2011 14:54

Well folks, its there and I want you to take the test 🤔

Use the stick (item 280) to select the cuboid you want

Commands

/res select size - show selected area size

/res select vert - expand selection from sky to bedrock

Don't use it yet, had no idea it counts blocks in 3D when buying from bedrock to sky, also its possible to destroy on bought land, so there is stuff I must take care first.

you shouldnt have told that that you can destroy land you bought...

now im worried... 😊
