

Registering people on minecraft

Posted by Gimp - 24 Mar 2012 17:05

Sorry to bring this up again tunes but has anything happened about voodoo reg system? still think it would help the server soo much and clean up the forums.

Or maybe give X-Mods the ability to promote people to twk-r. Half the noobs are able to register then whine to me that they cant post, and when they do the majority of them are idiots and end up annoying half of twk.

Tbh It ain't annoying in the slightest seeing another topic saying can I be Twk-R. I think ti was said that they weren't going to put it on the server because it makes it extremely easy for griefers.

All I personally want is for them to be a bit more thoughtful than 'can i be TWK-r'

saying please wouldn't hurt these guys/girls... After all the effort people put in you would at least expect them to say that? 🙄
