Well, it's finally there 😊

Installed mcbans and this are the commands

Local Ban Variations

* /ban - bans the player

*** E.G. /ban Firestarthe breaking my sign ***

Global Ban Variations

* /ban g - global ban

* /gban - global ban

*** E.G. /ban g Firestarthe griefing ***

Temporary Ban Variations

* /ban t - temp bans a player

* /tban - temp bans a player

*** E.G. /tban Firestarthe 15 m you are banned for 15 minutes ***

Misc Commands

* /lookup - checks players ban history (local/global bans)

* /kick [reason] - kicks a player from the game

* /unban - unbans the player from your server

* /mcbans

I won't give the rollback options as sometimes logblock has some.. issues 🤔
