Posted by Lukey44 - 14 Dec 2011 20:43

Hey my friend dot4444 was banned, apparently the reason he was banned is because apparently he used hacks when he didnt, Terrforms base and cause it is so far away apparently he used hacks to get there.

He got there be using our factions portal once your into the nether and u use the portal to get back you come back to terraform.

So he didnt use hacks he used a nether portal.

please unban him. 🙏

he didnt ban because you found their base, it was because there was evidence of x-ray like tunnels that led directly into secret rooms (i think)
