Hey guys. Err i wanted to join your minecraft server but i can't seem to find the minecraft whitelist blog so i decided to make a new topic. Well, i'm an experienced builder and i've been playing minecraft a very long time. I know i've got lots to contribute to this community. i'm hoping you can whitelist me.

I would also like to be whitelisted, and didn't want to spam the forum with about &quot;me too&quot; post, so I hope dannieblabla doesn't mind me tagging along on his post 🍌

Name's the same ingame: bacontaco

Thanks!
