

Hello guys, The introduction with a TWIST :P

Posted by VooDoo - 01 Apr 2011 18:48

Hey, I've already requested to join TWK now im making my introduction (yea im muddled up a bit)

Firstly, id like to introduce my self, Hey all im --VooDoo-- (Real name: Ross)

im 16 years old, I love music, music is my life, I can ride a unicycle, I make music for my own entertainment, I live in Manchester, I can and have made a number of CSS maps and I love Randomness (hence the unicycle part 🤪)

Okay, here is the twist, I feel that some ones style of music can tell a lot about a person, so what I would like all commenter's to do is post 3 or more links to music songs/videos they like!

I Personally have no genre of music as long as its not "Mainstream" music..

Here is my choices:

Mine:

You'll notice im more into heavy music than others but I love a mix..

So, its your turn now 🤪

Thanks

Ross.
