

Music fascinates me so much..

Posted by VooDoo - 29 Jun 2011 23:52

Wow, Music makes me happy, sad, angry or calm, all just by using a few sounds?

I find it so fascinating that just a few sounds can make me feel so strange, so I am creating this thread so that I and the rest of you people can post your most fascinating songs on here, I am also doing this to look for inspiration for anything (music inspires me to do a lot of what I do)

So, this song really makes me feel happy and I find it cool how talented they are 😊

Ok, if there is music that really takes me to another dimension, here's one, and for me, the best one!

The video is 10 minutes, but the song is around 15.

I can only agree on the subject. I tend to listen to music where ever I go, never leaving home without my headphones and spotify lists loaded on my cellphone. What I listen to depends on the mood and what I do while listening to it. And then there are music out there that just.. 🙄
