Wow, Music makes me happy, sad, angry or calm, all just by using a few sounds?

I find it so fascinating that just a few sounds can make me feel so strange, so I am creating this thread so that I and the rest of you people can post your most fascinating songs on here, I am also doing this to look for inspiration for anything (music inspires me to do a lot of what I do)

So, this song really makes me feel happy and I find it cool how talented they are 😊
