sry but plz dont ban anyone without seeing it for yourself or having some sort of proof , we have done this n the past only to find that the player in question was not hacking .

plz if you see someone hacking plz take a vid.

just looked at his stats page , if he wasis hacking hes not very good at it , 100 kills 130 deaths ?

well colin if you look at his page and targets hes having 65% headshots even when looking at *good* players they dont have that

i do get what you mean though colin but i dont ban people without having a reason to ban them and looking at his stats are more then enough reason to do so 😊

silly silly plonker 😊

lol 65% hs aint that big a deal if he aims each one and dont spray i kept a constant 60% hs ratio throught public serve back in the day 🙄 no sweat.... but yeah 100/130 kinda bad hacks 🙄
(ESPECIALLY for aimbot)
