

If you like dubstep.. and you like halloween...

Why not combine the two and play this song loud at your house, pretty sure the kids will be terrified if you had this blazing, open your door, jump out at them... they would probably die 🤩

Awful!! 🤩

The whobbles are bad and the drum mixing sounds more like DnB tbh. This is a much better version if you want something for halloween:

And if you want to scare them just blast this in your apartment and ppl who walk by will be freaked out Im sure:

I know it will cause I played this at a halloween party for 7-9 yo kids at the daycare/kindergarden I worked at. There is no better soundtrack then Silent Hill for halloween imo.
