

## Sk-Sk-Skyrim

Okay, so far, I've played Skyrim for about 30-35 hours, and I must say, it is QUITE addictive. just as good as the last! The only thing I don't really like is the menus, but I've gotten used to them now.

Anybody else have it? What do y'all think?

PS. If anyone wants to add me on Xbox live, I think you can guess what my gamertag is 🤔

Are your giants glitched where they instant kill you and your body goes flying into space?

Gamertag Fishmonger? 🤔

Add me instead cuz I won't be around next few days, driving test tomorrow (Reading goes beware) and then my dad's b day Friday, gamertag super che ken (I want to change it to che ken or sandman but 800 microsoft points... really?

I don't get that glitch no, they don't 1 hit kill me, but they could get very close with 1 hit. I ran away before I could see what happened when I died xD

And yeah, changing Gamertag is too expensive. 800MP too expensive 🤔

Don't think the giant thing is a glitch. has happened to me a few times. Its only if they direct hit you. Giants are immensely strong. I shoot them with arrows!

And Johannicus. How do I post a screenshot? I press print screen to take them, and they come out as .bmp and I can't view them, what do I do?!?

Well I killed a giant yesterday, and it managed to hit me a couple of times, and I was fine (granted I did have over 270 health 🍷, and stocked up on potions, and a lot of stamina for running away xD) but never happened to me

And you should be able to view .bmp's with a normal image viewer?

I use steams sreenshot ability so mine are in jpeg. Then I use the box below this text window here that says "Add file"

Another way to share a screenshot is to upload it to imageshack.com and then just post the link to it here..

Right so I went to one of the cities right?

And a dragon landed in the city and started rampaging, so I killed it. That's good right? I just saved the city right? So why the hell did the guards come and arrest me? :fp:

I've been having some weird experiences with guards. They walk past and say "Hey, I know you", then when I talk to them, they say that exact same thing again, then I have the only option of "You're making a mistake...", they say "Don't think so. You're a wanted man", then I get the usual options of, bribe them, go to jail, etc. but I also have an option of "I don't have time for this" or something, and they just say "True, I don't have time for this. But I won't forget you" or some shit. And even if I get caught doing a crime, I don't get arrested. It's kinda weird.

Such a long post for such a simple explanation... but I enjoy typing 😊

Could be that you have stolen something in their area but they cant prove it so they just suspect you.

I found this beatiful cave yesterday:

And when I exited I had an epic dragon encounter wich ended like this:

I love melee finish moves on dragons 🐉
