Guys can you set the gg dm server, so that you have to press auto assign when you join? i am fed up playing 5 against 2 or 3 against 1 or whatever....

It will sort the men out from the boys. cheers.

No 😊

Erm, I think it would be Colin but I don't know who has control of the gungame server, probably DS  
Let's wait for Colin to come on

or someone with rcon access needs to change the cvars to mp\_limitteams 1 and mp\_autoteambalance 1  
which will atleast prevent team stacking from the start.
