Hey this is mainly for tunes 2 see but it doesn't matter, so thanks for making me and Shadez22 mods really appreciate it! But can we also have build rights for the spawn me and oGIMPo were gone ask you but you weren't on, the reason though is so i can help do the casino i was doing it with gimp today and it was a lot of fun 😊
. So if me and shades can get build rights that would be great, but if we can't thats fine also 😊
