Well, this WAS supposed to be an application for rights.. but not only is it a TERRIBLE application but you also ended up getting perm banned from the Minecraft server for making jokes about subjects such as "Cancer, Other players and Other players family" You also spammed the server with Homophobic remarks and more, thinking you could hide all of your insults and disrespect by speaking Dutch, but guess what, Speaking in foreign languages on an ENGLISH server is also one of the rules you broke, you and 4 others were banned for these reasons.

(Jochemvdd, Golden5800, The_Rick_Master, Sky341 and Cthuluishere)

So.. enjoy your ban.
