reg for VM

_____

i'm VM

i've been gaming since pong

mostly a CoD/BF/MoH fella

but i've found minecraft to be a nice change of pace

found your server when searching for mcmmo servers and it seems a good fit

all the other servers i've found so far were all paintball or l4d all the time

makes no sense, if i wanted to play l4d i would play the real game

if i wanted to shoot at people i'd play BF

minecraft is for breaking blocks!
