_____

Haha! Temp banned for X-Raying previously, you "stopped" even though afterwards I caught you a second time and confronted you about it, and what you were doing was nowhere near strip mining. You were digging in a straight line, from a random place in a ravine, which by the looks of it you also X-Rayed to, and then digging out in random places through stone to get to diamonds. How is that not X-Ray. You're not getting unbanned.

EDIT:

It also seems you were X-Raying to Iron too, which makes it even funnier
