

Hello!

Posted by Lee.H - 17 Apr 2009 23:43

Hello all,

Im not very good with introductions, so this will be short and sweet.

Im Lee.H, 16 years of age, just joined the clan, thanks to Vagon for the invite.

I played alot on the gungame server before the IP reset, and now I just find myself sitting on there with no players. Hopefully this will pick up soon. I do like to surf alot, but I dont play much on the TWK surf server because I dont like the RP mod that much.

Music tastes is very large. I like dance, hard dance, trance, hard trance, drum and bass, rock, metal, rap, hip hop, piano. Im sure theres more I missed off that list. Infact I went to see The Prodigy on the Monday just gone which was fun.

Lee.

The RPG mod is turned off on the surf server now 😊

Oh, welcome to the clan mate 😊

Hi Lee,

Thank you for joining the website and welcome to the community forums.

GG will be as busy as it was soon and yeah, the RPG mod has gone!

(PS: If you know of any previous players be sure to let em know of the ip change - cheers 😊

Talking of surf server - I'm updating today with a new list of maps and looking at the DM aspect - I've also altered some server configs.

Did we want to try surf without the DM? I've uploaded a new set of maps that would probably work without the DM on anyway ...

Thoughts?
