Hello all,

Im not very good with introductions, so this will be short and sweet.

Im Lee.H, 16 years of age, just joined the clan, thanks to Vagon for the invite.

I played alot on the gungame server before the IP reset, and now I just find myself sitting on there with no players. Hopefully this will pick up soon. I do like to surf alot, but I dont play much on the TWK surf server because I dont like the RP mod that much.

Music tastes is very large. I like dance, hard dance, trance, hard trance, drum and bass, rock, metal, rap, hip hop, piano. Im sure theres more I missed off that list. Infact I went to see The Prodigy on the Monday just gone which was fun.

Lee.

What's up with the guns menu? What I might do is disabled DM for some maps such as Fruits, Vegetables and XIV\_v2a.

When you select random weapons EVERYTIME, it doesnt give you guns next time, you have to open the guns menu again.

Also what I forgot to add was that for nearly 2 years now, i work for PsB (PunksBusted), the #1 anti cheat site for PB (PunkBuster) games, so as you can imagine, I feel pretty strongly about anti cheat.

Problems is long gone, but when the patch 1.41 was released to Battlefield 2 punkbuster wouldn't let me join any server for a couple of weeks or so :/ But it seems ok now. In what department are you hired? IF I may ask 😊

Accounts team, basically I regulate which clans may / may not stream their servers to us, aswell as checking through any changes made on accounts, to ensure if everything is still ok, and making sure clans are actually streaming, and auditing clans to ensure there is no cheaters in there. We dont want cheaters streaming to us 😊

Also I moderate the forum 😊

Welcome Lee to our community!

Yeah Prodigy Ownz (or used to when I saw them here a few years ago)

Hope to see you around!
