

## Ded3 is post Whoring

Posted by VooDoo - 24 Apr 2011 23:43

---

Every single thread I click on I see at least 2 comments from Ded3 and most of them are completely useless and is a post, and then the next one is him adding to his pointless post, so I think he is just post spamming to get his post count up, and a few people have told me that its kinda irritating them, not going to mention names..

just wanted to let people know..

Thanks

I was implying your naive when it comes to forums.

most active members know that spamming "naughty orange" and double posting 10 times isn't usually the thing to do, You just need to calm down on the posts that don't mean anything.
