

Ded3 is post Whoring

Posted by VooDoo - 24 Apr 2011 23:43

Every single thread I click on I see at least 2 comments from Ded3 and most of them are completely useless and is a post, and then the next one is him adding to his pointless post, so I think he is just post spamming to get his post count up, and a few people have told me that its kinda irritating them, not going to mention names..

just wanted to let people know..

Thanks
