

What are you listening to now?

Posted by Chifilly - 26 Apr 2011 12:02

I've been on a few forums in my time, and all of them seem to have a topic where people could post YouTube videos of what they're listening to, or their favourite song(s) etc. but I haven't been able to find one here (or an active one that is) so I thought i'd make one 😊

Here's what i'm listening to at the moment:

Im mainly a metal and electronica fan. At the moment Im mostly listening to this:

Burials album "Untrue" has become my soundtrack to Minecraft 🎮

When I want something less "calm" I usually put this list on:

[open.spotify.com/user/johannicus/playlist...TFVPGjdIGxZkaOlcucMQ](https://open.spotify.com/user/johannicus/playlist?uri=spotify:playlist:TFVPGjdIGxZkaOlcucMQ)

Moonsorrow has also seen alot of air..

Thats about it at this point for me. But I tend to expand my horizon music-wise when I can.
