I now most of you people here might play the most on your pc but doesn't mean it's your most precious one 🤔

I'm just curious wich consoles you guys like the most if you use any 🤔

I have a Wii too 🤔
haven't played on it in over a year though. I'm prodominantly on the PC

And Kinect is good, but not something I would invest in. If I won it or got given it, awesome, but I sure as hell wouldn't buy it
