

any1 else?

Posted by deN - 04 May 2011 05:35

well, when i press the Forums-button on the top, i got this 404 error:

You may not be able to visit this page because of:

an out-of-date bookmark/favourite

a search engine that has an out-of-date listing for this site

a mistyped address

you have no access to this page

The requested resource was not found.

An error has occurred while processing your request.

Please try one of the following pages:

Home Page

If difficulties persist, please contact the System Administrator of this site.

Component not found

so basically, is it just me or does this happen to some1 else?

Yeah, sorry folks, but had to enable SEO (search engine optimizations) and friendly urls and rewrite, I tested a few links, but did not hit that one...

Please report if anything got broken with this "small" change.

Yeah, I was getting tired of having all that crap written on the address bar 😊
Besides making the site a little bit more secure...
