These guys I found while using the "Stumble Upon" feature for FireFox a few years ago I thought were amazing. I even still listen to it and it makes me kinda emotional (music plays with my feelings a lot) and yea, thought I'd show you them...

Enjoy 😊

tasted two bits of candy so far 😊  
'noooo, what I was expecting lol, was thinking dubstep  
'still some beautiful candy 😊

edit-now eaten the bag 😊  
like 3 the best, very calming

edit2-oh god, what was i thinking. after the piano is bagpipes 😊

amg some epic music, sounds like your standing on top of a mountain with a camera just moving around the landscape with your back towards the camera

damn this is some epic stuff 🤔

thanks for the share this is the most epic sounding music ive heard in a while!

Dude, no problem, also I have a zip with all the songs that are on the site and they are named with the name of the artist and the name of the song...if you want a link 🤔  
? (although I think some aren't labelled correctly)
