could make it like a jail, a sort of dungeon perhaps. maybe some leather. possibly a few chains dotted around the place 🙄

on the non kinky side of things, a small to medium sized map would go well with the server, everyone loves those like ak n texture maps 🙄

Yeah, a small - medium map would be good, something hidden!! (tell me ofc! 🤔)
) erm; and more than 1 floor (so you can snipe and stuff)

i'd go for a medium sized minecraft map, would love to se more of those along the lines of a DE_ map so you get to choose wich weapons you want i dont like it when you only get say a AK, so yeh minecraft maps could be cool and well small sized maps imo will do alot worse now coz the server is getting more crowded again and i dont see myself running around on a small map with 20 people 🤔

Eh....don't do a jail map. something with lots of confusing things I'd say. Twisting tunnels, etc, I dunno....
