

Erm.. whos doing this and why?

Posted by Scathe - 27 Oct 2011 10:06

Ok so last night, I was on and had been on 19 karma for quite some time. All of a sudden this morning ive just noticed it has been reduced to 15. 🙄

I would like to know who's behind it or at the very least know the reason why??? as the way I see it I have not actually done anything to offend anyone.

So I feel some justification is definately needed!!!

to be honest, there has been about 4-5 people complaining about their karma being attacked by trolls and if I'm fair, ive past caring about my karma, if everyone is going to be pissing about with it then it doesn't even show a fair representation of that person? so it is pretty useless if I'm honest.

ooh I have 0 karma WOOP:)
