

Erm.. whos doing this and why?

Posted by Scathe - 27 Oct 2011 10:06

Ok so last night, I was on and had been on 19 karma for quite some time. All of a sudden this morning ive just noticed it has been reduced to 15. 🙄

I would like to know who's behind it or at the very least know the reason why??? as the way I see it I have not actually done anything to offend anyone.

So I feel some justification is definately needed!!!
