

## Request for TeamSpeak :D

Okay, well I've been talking to tunes, and we thought it could be a good idea opening the Team Speak server to TWK users and not just the TWK members.. doing this MAY bring a much more friendly society to the Minecraft server and perhaps TWK in general, and YES I do realise that a lot of the MineCraft community are kids.. BUT almost every time I've been on the Team Speak server there has been at least 2-3 Team Speak Server administrators on-line so I think it will be easily maintained.

Also, we can have locked rooms to make sure that Admins and the Members have their own privacy.

tl;dr: What are your thoughts on advertising the Team Speak details to all of TWK's community.

Thanks

OMG I was going to post about this today and you have already done it :O :O :O :O I think it would be a great idea. I go on a communities TS called NVclan and they always have like 20-50 people on it 😊  
I think we should just remove the password and let people join, but just don't give any of them admin.
