

Twkgaming site image rotator and background

Posted by Tunes - 15 Nov 2012 10:35

Hello folks, most of you have read something about upgrading TWKgaming site into a new platform.

Well, atm it's taking years, mostly cause I don't have all the time I want to deal with it.

But, for the meanwhile, I need your help!

The frontpage image rotator and background bugs me a bit, and that we can change in an very fast way!

The idea, is to turn the site more Minecrafter friendly, since we don't have atm any CS:S servers, they don't make any sense to be there.

Use your imagination!

Best 10 images will be posted in the rotator, post images in this post!

Awesome in-game minecraft prizes will be given to who get's the their images inn the rotator!

YES, this is a competition!

Prize is

2 stacks of diamond blocks

2 stacks of emeralds

1 stack of high level enchanted diamond tools

1 stack of high level enchanted diamond armor

Prizes are not avail to admins who may get their pics posted in the frontpage 🙄

So, we need an AWESOME minecraftish background and pics for the rotator, and maybe a colour scheme.

Anyone can post more than one image.

Thanks everyone!

BTW, to who wins the background image, wins another 10 stacks of chosen materials (1 stack each, not diamonds or emeralds and not tools).

Dimensions:

Background = 1280 x 874

Image rotator= 665 x 265

I've been learning photoshop at work so I can give the background a go 🙄
least I can do now that I don't have the time to help the server much.

Also while were on upgrading the twk site. What about adding a bit on the homepage that links to the SMP access request section to help the noobs? 🙄

Edit-what are the dimensions for the background image?

This is the file www.twkgaming.com/images/twk-bg3.jpg

About the button, yes, definitively there should be one there, on the right side of the rotator images is a good place.

Awsome 😊
) I'll probably start working on it later today (at work now 😊)

oh come on, no one interested into winning lots of mc goodies???

geesh...

I'm shit at creativity, so I won't be entering 😊

And a lot of the Minecraft kiddies don't even come on the forums. Might need to advertise the competition on the server too

Posted by Gimp - 16 Nov 2012 00:23

Enter the first background! (more to come - maybe 😊
) Didn't take very long after scrapping the one I had made originally 😊

Edit-sharpened it up for your highness 😊
